They were at a loss how to explain why the woman had said in Knicker-bocker Hospital that a book agent had stabbed her, after her first statement was to the effect that she had received the wounds in a fall. They were also unable to find the weapon with which the deed might have been done, and there still remained considerable doubt regarding a motive for the suicide.

The autopsy at the morgue, which lasted three and one-half hours, was attended by Inspector Faurot, Assistant District Attorney Deacon Murphy, Otto H. Schultze, medical assistant to the District Attorney Deacon Murphy, Otto H. Schultze, medical assistant to the District Attorney; Coroner's Physician Albert T. Weston and Police Surgeon Higgins. At its close Mr. Murphy and that all present had arrived at the conclusion that the woman had killed herself. Early this morning he told his wife he was going to his shop for a few minutes. The building is a few hundred feet in the rear of the Riker home, which adjoins the Frederick property. From an upstairs window Mrs. Riker saw that instead of going to the shop her husband had headed for the Frederick farm. She watched him climb the fence and start across the field, and noticed her brother silhouetted against the sky as he was hoeing industriously in a corn patch on a hilltop beyond.

Five minutes later four revolver shots brought Mrs. Riker hurrying to the back door. Her husband was walking slowly, almost deliberately, it seemed to her, back across the field. Her brother had disappeared.

Riker climbed slowly back over the fence and came up to the porch.

"I killed John," he said, calmly. "I did it in self-defence."

His clothes were not disordered and there was not a scratch on him.
